Features Key:

- Interface sensitive to a grammar that is much more natural than both tcsh and fish
- One line "aliases" C-R and C-L
- Three line improvements to an existing use to get aliasing multiple aliases directly from line three
- Many extensions to our C-R and C-L punctuation.
 - In particular cut, join, or back up, continue first and default. Pls carefully read the prose below
- Overlays
 - Command key interactive overlays.
 - See "Configuring Gives" below for details.
 - The key is used to both empty the on-screen filter and "wind" or "shift" the filter.
- eargs:
 - A facility for specifying constant filters. For example, a filter can be created that constrains every command to only those that contain the word keyserver. This is particularly useful in cases where a singular string is used for the exact match request. The filter is created with a single key, containing the exact words keyserver. And the filter is created with the rest of the keyserver string supplied by default.
 - Functions 'define-gives/keyserver-and-filter' and 'get-key' are used to retrieve keyserver and key strings which are then used in searches. See 'defines-and-conflicts' below for details.
 - Also, %eargs' can be used to use the key-string as it appears in the command itself. For example %eargs "keyserver host whereis "awacs"

What's new:

GHI and GHII are not the original files. When I emailed Joe to get a copy for the kit - their format was different. I then asked about this and (of course) got an embarrassing reply. We should have known better and kept ours. Sigh... Copy or Edit? The Goal Whether it was Gherkin's wish to save her job or his own determination to heist the treasure vault, no one will ever know, but even the Magilla Gorilla could not have scripted the route the crook would take. We did agree to cut back the script length by a third for this reason. Taking down three Magillas in a row was emotional for one of the pack members, and an unreasonable act for another. Furthermore, they wouldn't let her make up the wasted pages at the end. However, I did not write the script, and was unable to edit it as this was the 32-page version. With the purchase of the kit, you should be able to add the omitted pages. Beyond that, it got a little weird...and should be included in GH2. Joe's Letter of Intention Dear supporters, Sometimes stories are told for a purpose. They can tell us much about who they are written to, or what things should look like. A positive look at life in a distant outpost of law and order, where the Power Manged is the plaything of common thieves. This cheeky tale is for you, me, and every crookz who ever stole anything from a bank, a donation box, or a ship's cargo hold. I started this on a whim when Gherkin was playing with his "toolbox" of media. This led to a new look at a different type of movie. None of these ever ended up as a 90's film. They were merely a grab bag of old ideas brought together for a single storyline. Early Video Game Trilogies As most of you know, the Crookz are a fan of both video games and movies. It is for them that the Atari 2600 is brought up in the story. Greg Rogers (Greg) and Jayson Richter (Jay) had worked together on it in high school. Years later, they found their way into the video game industry, and worked together on a few more titles. In a 2013 interview with Retroist.com, Greg

(AP Photo/Matt Rourke) (CNSNews.com) - In the 17 years of her presidency, at least 15 laws have been signed into law with the name "Bill Clinton" on the document. Of those 15 laws, at least 13 are named after specific people. Five were named after: --Barack Obama (with the 2009 Patient Protection and Affordable Care Act): --Hillary Clinton (as the 2003 No Child Left Behind Act): --George W. Bush (with the 2001 Patriot Act): --George H. W. Bush (with the Foreign Intelligence Surveillance Act of 1978): --Ronald Reagan (the International Co-operation in Criminal Matters, or Russia and Eurasia Desk, 1961). So far, the Democratic Party's presidential nominee, Hillary Clinton, has not gotten her name on a federal law named for someone else.
