As shown in FIG. 1, a conventional multiple frequency vibrator includes a vibrator 1 having a stationary disc 11, and a vibrator driving coil 2 connected to a current supply 3, which is provided with a breaker 4. By controlling the current supply 3 in accordance with a command signal (a knocking instruction), the vibrator 1 is repeatedly excited to vibrate by an alternating current. However, since the conventional multiple frequency vibrator produces a high frequency vibration by employing a vibrating disc having a complicated shape and a vibrating wire wound around a vibrating disc, a construction thereof is complicated, a production cost thereof is high, and so a small-sized multiple frequency vibrator can be made. Furthermore, the vibrator is inconveniently large in volume. The present invention relates to a multiple frequency vibrator, which is adapted to be used in a vibration application and especially in a knocking application for a current ignition system of a vehicle or in a motor driving a component thereof, and is capable of being miniaturized and reducing an installation space, and more particularly, to a multiple frequency vibrator which e79caf774b

Overall a great helmet! The shape is perfect, it fits fine, and the only downsides are the \$US.93 Australian tax and the ABSENTE "A". Other than that the helmet is one of the best value for the money helmets out there, but no way I would buy this helmet if I was an American. 7/22/2004 Missy I don't like this helmet I don't like this helmet. The visor is really thick. Even if it is black it shows the scratches. I wish it had been thinner, so much easier to see out. It doesn't sit as good on the helmet as the others I have. If I were to buy another helmet I might get a different style. My old helmet was much better.Apple's Worldwide Developers Conference comes to San Francisco next week, and as usual, that means "a whole lot of announcements" for the company's software and hardware products. However, this year's WWDC may be overshadowed by another announcement of note: Apple has hired the singer-songwriter Andrew W.K. as a special advisor to the company, as the Los Angeles Times reports. WK is known as a child star, having participated in the hit TV series Disney's "The Magic School Bus," and an iconoclast, performing with the shock-rock band Appeal to Reason and releasing a number of songs on his self-titled album. (Also: he once wrote an entire song about a duck-billed platypus.) This week, however, he's being recognized for his talents as a creative and a business leader. Apple hired W
