Vehicles now appear through the black spray, when not visible. . . . . . Hook up with the authentic Chicago gangsters on their turf as you exploit your vast criminal empire. Get in the business of crime before the law catches up with you. The underworld of Organized Crime is a place where you're either John Gotti or Sonny Ho. What you choose will determine how you rise in power and influence, which factors into how you play. As an assassin for the mob, there are many different ways to perform your job and achieve different results. From street level shootouts and drive-by murders to high-impact standoffs, as you gain the reputation of the leader of the Chicago underworld, you'll decide what the people can and can't live with. 2. No, not the soul patch, but the facial hair. A beard and mustache are the least of your worries when it comes to being a DeNiro. Just like in

real life, your face serves a purpose, and as a mob boss, your expression is just as important as the rest of your body. You'll look the part of the boss, and no one will question the truth behind your snarl. To build your gang, you'll start with the basics: buying a crew, stockpiling weapons, and building a Mafia empire. If you're into rule-breakers, the space is yours. There are no restrictions on how much you can raise. More affiliates mean more power, and more power means more money. This process happens naturally, and as you work your way
